V7HD4S-02M-1E

Overview

The V7 ultra-thin HDMI cables are 50% thinner than standard HDMI cables, delivering up to 3840 x 2160 resolution and digital 7.1 surround sound through a single cable. The gold plated contacts and connectors provide maximum signal transfer and corrosion resistance. The V7 ultra-thin HDMI cables are perfect for routing in tight spaces. These cables deliver Ethernet data interconnectivity for compatible devices and are fully backward compatible with older HDMI-capable devices.
